Position Statement:

I have been working with the Hong Kong chapter since 2015 and currently serving as the co-chairs of YAG and program committee. In 2018, I get to work with two committees to provide members with many programs and learning opportunities. Together with Andrew King, we won the FAIA Component Grant to help our young members with ARE study. For 3 years, our community outreach connects AIA members with local school children and this year we will help children with special needs. This chapter provided a platform for me to grow academically and professionally. I hope to bring my experience to more members by serving as the Vice President.
